

Submission to the Health Star Rating Advisory Committee (HSRAC)

Consideration of potential anomalies within the Health Star Rating Calculator (HSRC)

Note:

- Before submitting potential anomalies to the HSRAC, please ensure that you have read and applied all relevant guidance material to your calculations, in particular the Guide for Industry to the Health Star Rating Calculator.
 - Certain details of this application may be made public, including on the websites associated with the HSR system. These questions are marked with a **. By making this submission you agree to this information being made public, at the discretion of the HSRAC.
 - Personal details of the individual/organisation making the submission will be treated confidentially and made available only to the HSRAC and Secretariat, individual technical experts that the HSRAC may refer to for advice, the Food Regulation Standing Committee and the Australia and New Zealand Ministerial Forum on Food Regulation which oversee the HSR system.
-

****Brief plain language description of the anomaly (no more than 5 lines)**

Product or product category to which the application relates

Proposed nature of the anomaly

- Product/group scores too highly
- Product/group scores too low
- Compared with other products/groups the item receives an inappropriate score
- Other... please outline briefly

Referring to the definition of an anomaly, on what grounds is this application submitted?

- Contrary to the Australian Dietary Guidelines (ADG)/Australian Guide to Healthy Eating (AGHE)
- Does not enable appropriate comparisons between foods based on the agreed health benefit and health risk-associated food components

Evidence of the potential anomaly

Please provide a detailed description and evidence of the potential anomaly. Where appropriate, technical terms should be defined in text or on a separate page of definitions. Technical specifications may be provided either in this space or as a cross-referenced attachment. This may include nutrient data, star ratings, comparisons to other products or product names / brands. Please note, where specific products/groups are referred to, full nutritional information must be supplied either from direct analysis or with reference to NUTTAB data.

How do you propose the potential anomaly should be rectified?

Is there any other relevant information that the HSRAC should be aware of in considering this submission?

<p>Thank you for making a submission to the HSRAC. Receipt of your submission will be acknowledged in writing within 10 working days. Following HSRAC's consideration, you will receive notification of the outcome and/or next steps.</p>
